Sipadan- Kapalai Island DIVING

SIPADAN is a small island where you will enjoy your diving and snorkeling experience. It is a 15 to 30 minutes boat ride south of Mabul. No other spot has more marine life than Sipadan. There are more than 3000 species of fish and hundreds of coral species that have been classified in these riches of ecosystem. Sipadan is well known for its unusually large numbers of green and hawksbill turtles which gather to mate and nest and it is not unusual for a diver to see more than 15 turtles on each dive. Aside from the many diving points, Sipadan has a unique feature the famous "Turtle Tomb", an underwater limestone cave with a labyrinth of tunnels and chambers that contains many skeletal remains of turtles that became disoriented and drowned. Diving on Sipadan is all drift diving; divers drop in and cruise with the current along the walls. This combination of deep walls and ocean currents provides the ideal environment for pelagic such as sharks and large schools of jacks and barracuda. The diversity of marine life's found here at Sipadan gives it the reputation of being one of the best diving locations in the world.

KAPALAI lies to the east of Mabul about 10 minutes away. Once a truly beautiful island very much like Mabul but due to erosion it is now only a small sandbar that just breaks the surface of the water. It is relatively a new dive destination. The underwater scene is completely different compared to Sipadan. Like Mabul, it is an excellent location for macro-photography and is especially abundant in the rare finds of diving such as the mandarin fish, stonefish, leaf fish, pipefish, lionfish, frogfish, cuttlefish, eels and more.

Diving Schedules & Regulations:

***Boat Dives**

There are three boat dives a day, two in the morning and one in the afternoon. It is a combination of Sipada, Mabul and Kapalai dive making a total of 3 dives per day. Each boat goes out with a boatman and a Divemaster.

The number of dive is limited to avoid overcrowding; therefore, visits must be arranged well in advance. Divers on their first visit to Sipadan are briefed before they take the plunge.

Our Dive boats will depart to the dive sites every morning at 8.00 to 9.00a.m and return to Sipadan-Mabul Resort after the 3rd dive, around 4.00pm. Divers will return to the resort for their meals after every dive.

The time restricted by the Government for Diving at Sipadan Island is 6pm to 6am

Special Protection Rules for Turtles:

Divers and snorkellers are to refrain from touching, teasing and restraining turtles under water. As turtles are air breathers and can drown if panic or are cornered. Anyone riding or restraining turtles will sit out the next dive.
