Treasure Your Health

Good health is a body in harmony. Good health however, cannot be taken for granted!

The stresses and habits of modern lifestyles have led to a rise in silent killer diseases such as heart disease, stroke, diabetes, hypertension and cancers. These are mostly a result of several lifestyle-related risk factors such as smoking, unhealthy diet, obesity and physical inactivity.

Health screening is vital as it detects diseases, which often do not produce early warning signs. *Early detection* and *prevention* is key to good health into our extended years.

Raffles HealthScreeners is a one-stop, comprehensive health screening center to meet the needs of individuals focusing not only on *quality medical care* and *early detection*, but also on *education* and *health promotion*.

Health screening is conducted in a comfortable and cozy ambience, with an exceptional combination of state-of-the-art technology and personal attention from a dedicated team of physicians and nursing professionals. Each patient will receive a personalized medical report and in the private consultation with the doctor, you shall receive advice on medical treatment, including practical lifestyle advice and ways to ensure a holistic approach in and total health management.
