

IMMEDIATE RELEASE

6th APRIL 2008

SUMMER SCHEDULE IMPROVES CONNECTIVITY TO KEY DESTINATIONS

Effective 1st June 2008, Royal Brunei Airlines will introduce its enhanced Summer schedule that incorporates improved timings, connections and frequencies.

The Summer schedule will strengthen the overall network by introducing changes that improve accessibility to Brunei Darussalam from Regional and International destinations. Changes include increased flight frequencies to key destinations, convenient timings and better connections. To implement these changes RBA will suspend Sydney and Bali flights from 31st May.

Chief Executive Officer Ray Sayer said, "Although leaving a destination is never an easy decision, as regional competition increases it is necessary for RBA to make these schedule changes that improve RBA's product and strengthen the airline's core network."

For passengers who are affected by the Sydney and Bali flight suspensions in the summer schedule, Royal Brunei Airlines will offer either a full refund of their tickets or the option to be re-accommodated on other carriers. For more information passengers should call RBA Reservations offices at 2212222 or 3333737.
